Ratepayers Discuss Salaries and Dental Contract at Meeting

Frank Barringham Brings Matters Forward and Gathering Has General Discussion

The annual meeting of ratepayers on Friday last was featured by controversial debates on salaries to the school staff, caretakers, officials, and the financial statement.

Frank Barringham pointed out that the town statement showed the town clear of debt, whereas the school statement showed the town owing nearly \$800 on a note to the school board.

Discussion revealed that the note was not due till December 1932, though having been borrowed in 1927 to help defray the cost of the retaining wall on the north side of the school grounds.

W. Holley raised the point of salaries. He did not consider it fair that janitors' salaries should have been reduced and the others remain unchanged.

The miners had no increase in wages, and he did not agree to a 10 per cent cut on the workers and not on other employees of the board.

Frank Barringham brought up for discussion the dental contract, which brought forth a statement from Dr. McLeod giving a review of the work he had done during the year. The present contract is for \$120 per month, whereas the first contract, which was for four months only, was \$180 per month. Chairman Allan stated when they first entered into a contract, it was an entirely new departure in the interests of the children, and the board felt justified in continuing it.

Mr. Barringham pointed out, however, that he had pressed for definite terms as to services in the contract, and that the present contract was satisfactory, as the dentist must be in his office from 9 a. m. to 12 noon daily for treatment of school children. The majority of ratepayers present voiced their approval of the continuance of the contract.

A discussion also arose on the method of appointment of teachers, in which several ratepayers took part. The board's action was explained by S. Moores, who stated that the trustees would not be able to satisfy all parties, no matter which system they followed, consequently they tried to act as fairly as possible towards local applicants.

General discussion on various matters followed, Principal Hyle giving a brief report on the schools, and the meeting adjourned on motion.

L. O. L. Officers for 1932

W. M.	James Glendenning
D. M.	David Gardiner
Chaplain	Fred Antubue
Treas.	Rev. A. E. Larke
R. S.	J. L. Lonsbury
F. S.	Neil McKinnon
D. O.	Hugh Dunlop

Mine Status Held Lesson in Pay Cut

(Christian Science Monitor)

Minneapolis, Minn.—Mr. William Green, president of the American Federation of Labor, told the opening session of the biennial convention of the United Mine Workers of America here that present conditions in this country are "a tremendous indictment on our whole economic and industrial system."

"Every night, particularly in the mining fields, thousands of children go to bed hungry," he continued. "We hear much about reducing salaries as a cure for economic evils. My answer is, 'Behold the coal mining industry'."

"If reduction in wages was remedy, then the coal industry ought to be the most prosperous in the world. We have an object lesson here of that unsound economic policy."

District Boy Scout Assoc'n.

J. W. Gresham, J. P., Appointed District Commissioner

An organization meeting of the Crow's Nest Pass District Boy Scouts Association was held in St. Luke's hall, Blairmore, on Wednesday evening. The district council representatives of Bellevue, Hillcrest, Blairmore and Coleman will have oversight of all Scout work in the Pass.

The following officers were appointed: H. C. Westrup, Hillcrest, president; C. J. Tompkins, Blairmore, vice president; Rev. A. S. Partington, Coleman, sec. treasurer; Magistrate J. W. Gresham, Blairmore, district commissioner.

ST. ALBAN'S CHURCH

Next Sunday is Quinquagesima Sunday. The services will be 2:30 p. m. Children's service; 7:00 p. m. Evensong and address.

Wednesday, February 10th, being Ash Wednesday, there will be the following services: 10:00 a. m. Holy Communion. 4:15 p. m. Children's service. 7:30 p. m. Evensong and address.

ANNOUNCEMENT

LADIES! You will find excellent values in silk dresses; smart new models, very heavy quality, in assorted shades at \$10.95.

House dresses and Pyjamas, all fast colors, very useful and serviceable, from 95c up. May we show you these goods—F. M. Thompson Co. Ltd., Blairmore.

Workers' Candidates Promise Sweeping Reforms if Elected

Freedom From Taxation, and Free Heat, Light and Water Are "Planks in Platform"

The abolition of the existing system of taxation, no taxation on incomes of less than \$3,000 a year; all above that to revert to the municipality; free heat, light and water for the workers; no penalties for arrears of taxes, no evictions and no sales of property; no interference by the "mounties," and policing of the town to be in the hands of the municipality; money for relief to be levied against industry, the provincial and Federal governments; free lunches for the school children, who are to elect their teachers were the main items in the platform of the local union candidates in Monday's civic elections, as set forth by Andrew Dow, secretary of the local union, at a meeting in the K. of P. hall on Wednesday night.

C. Makin and other nominees of the union said they pledged themselves to put through these reforms; one candidate stating that if he did not comply with the platform, he would not wait to be kicked out, but would walk out, while another said that anything he did on the council would be sanctioned by the union.

The chairman invited questions but none being asked, he again read the platform of the candidates, and adjourned the meeting.

This was followed by a discussion on the strike situation, Red Sudworth taking the chair, Andrew Dow leaving for a Board meeting at Blairmore.

Candidates for Civic Elections on Monday

For Mayor—George Pattinson, hardware merchant; Charles Makin, miner.

For Councillors—Fred Antubue, H. Claes, Lewis Jones, G. Hope, F. Serak. Three are nominees of the miners, as also is C. Makin.

For school trustees—F. Antubue, H. Snowdon, J. L. Lonsbury, R. Sudworth, W. Holley. The last two are nominated by the miners. Vacancies on the council to be filled, three; school trustees, two. Polling on Monday from 10 a. m. to 7 p. m.

Canadians Won on Home Ice Against Terriers

The Canadians defeated Bellevue Terriers on Monday in a fast game here, Canadians winning by a score of 6-3. Hallworth opened for Bellevue, followed by Joyce for Coleman on a rebound from Pattinson. A fight held up play for a minute or two, and A. Goodwin and Jimmy Joyce were penalized.

Fraser scored the only goal of the second period, making it 2-1, while in the third the Canadians sent in four in rapid succession, Joyce and Fraser each scoring, Fraser again on an assist from Jenkins, and Oliva on a pass from Pattinson. Hallworth and Albert Goodwin each scored for Bellevue.

Bars Closed Monday

The beer parlors will be closed on election day, Monday, Feb. 8, according to information received from the district provincial police headquarters.

ANNOUNCEMENT

Mr. and Mrs. Joe Tufeland will be at Graham's beauty parlor on Tues., Feb. 9, to do permanent waving. Call to make appointments, or phone 249 W.

Coleman Homing Society

A meeting of the Coleman Homing Society was held in the council chamber on Jan. 17th, for the purpose of electing officers for the season 1932.

Those elected were: W. Roughs, president; W. Harrison, vice-president; A. Balloch, secretary.

The club wishes to thank those business men who last season donated prizes, which led to greater competition and greater success in the endeavor of the club.

The publishing of annual statements of the town and school district supplied very useful information to the ratepayers, and judging by the questions asked at the annual meetings, they are carefully examined by a large number of ratepayers. They can see at a glance how the money is spent, and the ratepayers meeting gives an opportunity for airing opinions and asking questions.

The Red Cross Society acknowledged with thanks \$22.75 from the Star of Italy, proceeds of the dance on Jan. 18. The lodge granted a reduction on the charge of the hall, which is also appreciated.

Local News

Rev. and Mrs. A. E. Larke entertained a number of young people on Saturday evening in honor of Mr. Larke's birthday.

Mrs. J. A. McDonald entertained last Saturday evening, three tables of bridge being in play, making a very enjoyable evening.

Mrs. Wheatley and daughter has returned home to Banff after spending a month's holiday with her mother, Mrs. Chalmers.

Frank Barringham is attending the annual convention of school trustees being held this week in Calgary.

W. Dibble returned on Friday from Nelson, where for six months he had been employed with the West Kootenay Light & Power Co.

Mrs. E. W. Bell, of Vancouver, formerly Miss Mae McIvor, of Coleman, will play on the ladies hockey team of the coast city at the Banff Winter Carnival, according to word received by Mrs. J. H. Boulton.

Hearing the Glee Club practising during the strike, preparing for their concert at Corbin on Feb. 12, reminded one of Nero fiddling whilst Rome burned.

A fire broke out on the roof of McLeod's store shortly after 9 a. m. Monday. The office staff with the assistance of men from the tippie extinguished the blaze. The fire brigade was called, making a quick take, but the fire was under control when they arrived. The interior of the office was damaged slightly by water.

Council Reports Economies in 1931--Tax Collections Good

Ratepayers Hear Reports of Chairman of Committees and Light & Water Co. Statement

At the annual meeting of ratepayers presided over by Mayor Moores, the financial statement indicated there has been a reduction in the cost of street lighting, which was effected by the installation of an automatic regulating clock. The amount for street lighting in 1931 was \$3084.30, as against \$3,176 in 1930. The saving would have been more had the first regulator been efficient.

He read extracts from the annual statement of Coleman Light & Water Co., showing their capitalization, at \$128,000, and though it was stated 1930 was the first year it had showed a profit, yet the replacement of old worn out pipes had effected a great saving in pumping, the cost as between 1929 and 1930 being about \$7,000 less. In 1930 the company earned a profit of \$2527, allowing a dividend of 10% on \$27,000 of common stock.

Some questions were asked as to clauses of the franchise, but the mayor stated it could not be changed, but the time to take up contentious matters would be in 1933, when the present franchise expires.

He reported on relief work, and also stated that the council appreciated the co-operation given in the present coal strike, 1931 showing an increase over 1930.

Appoint New Heads to C.P.R. Departments

Canadian Pacific Railway Telegraphs Department has with the New Year changed in name to the Department of Communications having supervision over the telegraph, telephone and radio broadcasting services of the railway. To the head of the new department Mr. W. D. Neil is appointed as general manager, vice Mr. John McMillan, retired, and Mr. H. H. Goodfellow takes the position of assistant general manager. Mr. T. Fawcett is appointed as general storekeeper of the Canadian Pacific Railway with headquarters at Montreal, and Mr. A. A. Goodchild retires as general storekeeper, Eastern Lines, of the railway.

Mr. Neil joined the service of the Canadian Pacific Railway as an operator at Calgary in 1905, thus rising from the ranks to the highest post in the gift of his department. His first ten years of service were spent in the West and in 1915 he came as superintendent of traffic to Montreal. In 1922 he became assistant manager eastern

lines and in 1924 assistant manager western lines. Since 1930 he was assistant general manager of the department and now is promoted chief. Mr. McMillan became a construction foreman with the Canadian Pacific in 1883 and passed through various grades of promotion in the West until March 1918 when he was promoted manager of Telegraphs at Montreal. He has been general manager, Canadian Pacific Telegraphs since 1921 from which position he now retires.

Mr. Goodfellow started with the Canadian Pacific as an operator in 1899 at Vancouver and has been in the West during all his service except for a year in Montreal as traffic superintendent. He had been in Vancouver as super-

intendent of Telegraphs since 1930 and is promoted from that position to his present post at Montreal.

Mr. Fawcett entered the company's service in 1905 as clerk in the vice-president's office at Winnipeg. Passing through various positions always in the West he became general storekeeper western lines with office at Winnipeg in 1917 from which he is now promoted general store-keeper of the whole Canadian Pacific system with headquarters at Montreal.

Mr. Goodchild had already a record of work with British commercial firms in London, England and with the Grand Trunk in Canada before he joined the Canadian Pacific Railway as a clerk in the Comptroller's office at Montreal in 1908. By October 1899 he had risen to the position of assistant auditor of disbursements. Similar auditor's appointments followed in 1901 and 1904 until in 1913 he became general storekeeper, eastern lines, from which post he now retires.

In Times Like These

In the course of the more or less extensive reading in which every man in newspaper work must engage, our attention was attracted by a magazine article bearing the title "In Times Like These," written by former U.S. President Calvin Coolidge. Coming from the pen of such a noteworthy man we felt assured that it would be a noteworthy article. We were not disappointed, and have decided to pass on to the circle of readers of this weekly column some of the thoughts expressed by the only living ex-President of the United States, in the hope and expectation that they may be found helpful and provide encouragement to others.

Mr. Coolidge expresses the opinion that one of the serious results that come from the experience through which the world has been passing for the past two years is "loss of faith," and he proceeds to show that if a man but keeps his faith, regardless of anything and everything that may happen, there is still a bright future before him.

The difficulty is that because some have put their trust in things which they have found do not always endure, they draw the hasty and unwarranted conclusion that it is useless to have faith in anything. Furthermore, there is a tendency, and it is easy, to conclude that whatever disasters may have befallen an individual are the result of chance. They have nobody to blame but themselves.

In Western Canada, however, probably the larger number of losers are to be found in Mr. Coolidge's third group, those who have sustained losses notwithstanding the exercise of their best judgment and through causes beyond their own individual control. But this simply means what everyone should know: that even when surrounded by all the safeguards and all the integrity which is possible to secure, the ownership of property involves a risk. The man who has nothing runs no risk; it is the man who has property who is liable to suffer. Nevertheless no sane person prefers to be the former rather than the latter.

The man who owns a house may lose it by fire, by flood, by a devastating storm. A man's livestock may sicken and die. A man may lose his crops by drought, or hail, or insect pests. World conditions may force prices to a below-cost-of-production basis. He cannot help these things, but that does not excuse him from making the most of what he has. The great fact of life is uncertainty, as Mr. Coolidge points out. The only thing we can do is to recognize the uncertainty and govern ourselves accordingly.

It might be a great personal comfort if we could lay all the blame for our misfortune upon some source outside ourselves. That is why it is easy to convince some of us that we have not failed, but society has failed. But while there is a relationship of all of us, which we term society, that differs from each of us, just as a house differs from the individual bricks in it, yet people are not bricks, and moral responsibility cannot be shifted to others. If we are to be free to make our own choices in life, we must take the risk of being responsible for the results.

If we could lay the blame for present conditions in the world on society at large, against whom is the blame to be assessed? It is impossible to point out any general moral lapse, any widespread dishonesty. We may say it is the result of greed and selfishness. But what body is to be specifically charged with that? Were the wage earners too greedy in getting all they could for their work? Were the managers of enterprise, big and little, too greedy in trying to operate at a profit? Were the farmers too greedy in their production or in co-operating to get higher prices for their products?

No, the most we can say is that there has been a general lack of judgment so widespread as to involve practically the whole world. Each and every one of us must assume our full share of responsibility for that lack. We have found out that we were not so big as we thought we were. We were riding too high. We shall have to keep nearer the ground. We may not feel so elated but we shall be much safer.

We must realize that the best recipe for financial security is to live within our means. That is our ancient faith. We have found nothing better.

We must re-learn the old Biblical admonition: "Thine own right hand can save thee." We must realize that Governments are not all-powerful, that present relief measures are but a crutch to help us for a moment when we cannot otherwise help ourselves, but that our salvation, our whole future, rests with us as individuals.

There is no power that can absolutely guarantee us economic security. We think we want relief from toil and worry, forgetful that our real satisfactions are in our achievements. If we will but make the effort to develop them, if we will apply ourselves faithfully to our tasks, we shall all find we have powers we did not know we possessed.

Drop In Living Costs

Reduction Of Fifteen Per Cent. During Last Two Years

Cost of living has dropped by over 15 per cent. during the past two years, the Dominion Bureau of Statistics reports. This is the second largest decrease among the leading nations, the United States leading with a drop of 16.5 per cent. Germany ranks third with a 12.9 per cent. drop, Great Britain fourth with 9.6, and France fifth with 8.9 per cent. One of the reasons Canada, United States and France rank so high is the extensive agricultural developments of these countries.

The modern telephone instrument consists of 201 parts.

Embargo Is Removed

Livestock From Britain Again Allowed To Enter Canada

A ministerial order issued by the Department of Agriculture removes the embargo against the importation of livestock from the Old Country which has been operative since June 30, 1931.

Issuance of permits for the importation of British livestock was withheld by ministerial order last June owing to serious outbreaks of the dread foot and mouth disease in various sections of the Old Country.

It has been estimated that Colombia's waterfalls could be harnessed to produce more than 4,000,000 horsepower.

Palpitation of the Heart Could Hardly Get Around

Mrs. Charles Stoen, R.R. 6, Pictou, Ont., writes: "I was troubled with palpitation of the heart; couldn't sleep, day or night, and was so nervous I could hardly get on."

After taking Milburn's Heart and Nerve Pills I was greatly relieved of these attacks. My mother also has great faith in them and finds no other medicine can help her so much for heart trouble.

I can assure you that Milburn's Heart and Nerve Pills are a wonderful bulwark.

Man Without a Country

Fittable Flight Of Negro Who Was Deported From Canada

Chained to a grating in the hold of a ship in port, where he has remained for more than a month, is another man without a country.

He is Cecil Jafes Scott, 29-year-old negro deportee from Canada and unwanted in his alleged homeland of Bermuda.

He was put aboard the steamer "Borsund" at Halifax, and when permission was refused to land him at Bermuda or Demerara where the authorities had no information concerning him, the only alternative was to bring him back to Canada. Having previously been deported from the Dominion, he was refused admission when the "Borsund" arrived at St. John, and now the captain and immigration officials are wondering what they shall do with the passenger.

The steamer's owners are liable to a \$1,000 fine if the deportee escapes. So "down below," in an improvised cell formed by a grating, is the "man without a country," his right wrist fastened to the steelwork and a blanket serving for a bed.

Cut In Salaries

Manitoba Government Orders Six Per Cent Reduction All Along The Line

Six per cent. cuts in salaries of all employees of the Manitoba government, from cabinet ministers down to the lowest paid civil servant, were ordered by the Manitoba Government. The cuts were effective as from Jan. 1. This order will make provincial salary cuts the highest of any government in the Dominion.

It is anticipated that governing bodies of provincial services and educational institutions will follow the lead of the government and also order corresponding cuts. A saving of \$200,000 is expected to result from the reductions.

Ship Fox Skins

Seven Thousand Pelts Leave Quebec For London Market

During recent days 7,000 fox skins have been shipped from Quebec to be placed on the London fur market, according to information given out at the office of the Co-operative Fur Animal Raisers of the province of Quebec. This shipment of skins, the largest ever sent out from here, is valued at \$200,000 and consists only of skins of the best quality.

In the face of orders on hand at present, Co-operative officials say it is probable that an additional 12,000 skins will be placed on foreign markets in the very near future.

Persian Balm tones and stimulates the skin. Fragrant as a flower. Cool as morning dew. Safeguards and beautifies the most delicately-textured skin. Creates complexion of exquisite bloom. Adds a subtle finish to the daintiest woman. Invaluable for softening the hands and making them gleefully white. Cool and refreshing. Delightfully fragrant. Delightful to use. Chosen unhesitatingly by all women who care for feminine distinction.

Cannot Hear Gold

Viennese who have taken to hoarding gold in their mouths in the form of fillings, crowns and bridgework have bitten off more than they can chew. Firms which cast gold bridges and similar material for dentists, have been doing a good business lately. The National Bank, which now has the sole right to sell gold, says temporary fillings will have to do until the gold crisis is past.

Toothache and neuralgia are instantly relieved by Douglas' Egyptian Liniment. A quick, sure remedy. Also recommended for burns, sprains, sores and inflammation.

The total value of building and construction awarded in Canada during 1931, as compiled by MacLean Building Reports, Limited, amounted to \$315,482,000. Ontario led all the provinces with \$125,452,300, or 39.8 per cent. of the Dominion total. Quebec comes next with \$106,125,700 or 33.6 per cent.

Land and Water Ferry

Hotel guests at Devonshire, England, now use a ferry that travels on land or sea. It is equipped with tractor wheels for land, and a propeller is driven off the tractor motor to drive the ferry through water.

In 1897, the first rats of pine cut in the Ottawa Valley reached the City of Quebec.

Pullorum is a disease which attacks poultry in much the same manner as typhoid does humans.

BEST FOR ADULTS, TOO

Astrologer Makes Some Unpleasant Predictions

Says 1932 Hard Year For Cattle and Married People

Prof. Gustave Meyer, of Hoboken, New York, who describes himself as "the nation's counselor and American scientific astrologer" cast his eyes heavenward, added up several rows of figures and predicted that 1932 is going to be a tough year for cattle and married people.

In scanning the planets for his annual first-of-the-year forecast, Professor Meyer considers that Japan and Canada are going to have much trouble, and that Japan will get the best of it in the long run. He feels that prohibition is going to have "a terrible time" during 1932, that property is coming back to stay, that Colonel Lindbergh and Henry Ford had better watch their step in February and that next fall there will be plenty of rain, snow, hail, thunder and lightning, floods, earthquakes, bank failures, broken legs and stomach trouble.

Among those who will suffer during the year, according to the professor's charts, are theatrical people, hotel and restaurant people, steamship people, bull traders, naval officers and cabinet members.

Those who will enjoy good luck include literary people, scientific people, astrologers, mining men, real estate agents, President Hoover, soldiers, diplomats and all the unemployed.

Places Unknown To Man

Large Unexplored Regions In Arctic and Antarctic Regions

Although the airplane, the motor car, the motor boat and other mechanical conveniences of recent years have helped wipe out many of the larger blank areas, marked "unexplored" on the maps of the world, the National Geographic Society, in a current bulletin, says there are still "many regions traversed only once or twice in history and a few that have never been seen by civilized man."

"Unquestionably the largest unexplored spot in the world today lies in the continent of Antarctica," the bulletin states, adding that though the Pole has been reached three and the coastline skirting of the interior only the pie-shaped sector leading inland from the shore of the Ross sea has been explored.

"Antarctica remains the greatest stronghold of nature against the curiosity of man," it continues. "Next largest lies at the opposite end of the earth, that part of the Arctic Ocean between the airship 'Norge's' path, on its flight over the North Pole and the coast of Siberia. It measures about 900 miles long and 400 miles wide, with an area about the size of Texas."

Large tracts in Greenland, Arabia, South America and Australia, have yet to be seen by man, the bulletin states.

Experiments are being made in Chicago, Ill., of a ray-producing device which, according to the inventor, will destroy ammunition on land, air, or sea at will.

Complete in itself, Mother Graves' Worm Exterminator does not require the assistance of any other medicine to make it effective. It does not fail to do its work.

Compressed air apparatus has been perfected to increase the volume and improve the quality of the tones from loud speakers of either radio or phonograph music.

The total expenditure by the different Provinces of Canada on main provincial highways during the year 1930 was \$34,502,759.

A new material for phonograph disks is capable of recording on one disk double the amount of music on an ordinary disk.

Shipping Gold To Britain

India Expected To Double Last Year's Entire World Output

India has shipped more than \$100,000,000 worth of gold to London since Great Britain suspended the gold standard, and if shipments are continued at the present rate they are expected to double last year's entire world output of gold which was approximately \$120,000,000.

More than \$8,000,000 in gold was shipped to London in one day recently. This steady outgo is regarded by financiers as an important contributing factor to the recent rise in the pound sterling.

More than in any other country in the world gold is the standard of value in India. All classes hoard it in the settings for jewelry, coins and other valuables, and banking systems scarcely known to the Indian villages. Whenever an Indian in the interior wants paper money he ships his articles of gold to the government mint at Bombay where they are melted and coined.

New Ideas For Cars

Many Advanced Methods Will Feature Automobiles Of Future

The automobile industry, in its quest for new features to intrigue the buying public, spends millions of dollars annually in experimentation on advanced methods of automobile construction. Many of the ideas which result from the extensive research of the industry's engineers seem radical at first glance, but are the forecast of what may be expected for future automotive transportation. Among the many possible developments discussed in engineering circles is such a startling suggestion as a gasoleneless, waterless car, propelled by radiated electricity. Another unusual proposal calls for the use of an airplane type of construction for cars, with large fenders and a combined roof and wing structure lifting a considerable amount of weight from the road, and with propulsion furnished by a propeller.

Sores Heal Quickly—Have you a persistent sore that refuses to heal? Then, try Dr. Thomas' Electric Oil in the dressing. It will stop sloughing, carry away the proud flesh, draw out the pus and prepare a clean way for the new skin. It is a recognized healer among oils and numbers of people can certify that it healed where properly applied.

Forestry Patrol Work

Brooks Airways To Undertake Government Work In Northern Saskatchewan

Forestry patrol work and government flying operations in northern Saskatchewan will be conducted during 1932 by the Brooks Airways, Limited, of Prince Albert.

Arrangements for this work were completed between government officials and R. D. Brooks, head of the Airways. The Brooks Airways conducted similar work for the government during the past year.

At the present time the Airways is operating four machines, two Stinsons and two Buells, with a staff of three pilots and two mechanics.

You're Worried

When your child is sick you're terribly worried. Of course you can't always avoid sickness, but you can remedy and often prevent the ailments with Baby's Own Tablets. They are the ideal laxative for children. Doctors prescribe them.

Baby's Own Tablets reduce fever, allay colic, prevent constipation, sweeten the stomach, and help clear up colds. 25 cents a package at any drugist's.

Stockmen Elect Officers

Meeting Of Canadian Livestock Co-Operatives Held At Saskatoon

W. A. Amos, of Palmerston, Ontario, was elected president of the Canadian Livestock Co-Operatives at a meeting of the directors held at Saskatoon. He succeeds W. D. Mackay of Saskatoon. Roy McPhail, Brandon, was elected vice-president of the organization.

Directors for the provinces are: Alberta—J. E. Evanson, Taber; Saskatchewan—W. D. MacKay, Saskatoon; Manitoba—Roy McPhail, Brandon; Ontario—W. A. Amos, Palmerston; Quebec—J. T. Desmarais, Montreal; Maritimes—J. McEllan, Prince Edward Island.

Real Benefit To Farmers

Shipping Club In Quebec Markets Produce To Advantage

A fine example of the real benefit to farmers in getting together to market their products is afforded by the results obtained by the Campbell's Bay Shipping Club, of Pontiac County, Quebec. This year to date the club has marketed 250 head of cattle, 250 calves, 1,150 lambs, and over 12,000 pounds of dressed poultry, representing cash returns to the farmers of that district of well over \$15,000. The Federal and Provincial Departments of Agriculture have co-operated effectively in making the scheme a success.

Hard Times For Chef

A year ago Chief Francisco Arroyo was preparing dainties for kings and queens, princesses, and princes. Today he labors over Spanish stew for the city bread line. He replies to questioners with graceful Spanish casualness, as he manipulates pots and pans in the free kitchen maintained by the city.

Mexico may abandon her navy under an efficiency program soon to be put into effect by Secretary of War Plutarco Elias Calles.

Three Hundred Convicts Battle Prison Guards In Riot At Dartmoor

Dartmoor, Devonshire, England.—Three hundred convicts at grim Dartmoor prison—engaged over a mess of porridge—waged a futile, bitter battle with prison guards and police Sunday, Jan. 24, in the most violent penal outbreak in British history.

Ninety-two convicts were reported wounded in an all-day conflict in which the prisoners burned the principal buildings and attempted a wholesale escape over the walls. Twelve warders and police were injured.

The home office in London issued a statement, saying no inmates had been killed and none had escaped. Only about 20 remained in the hospital, according to this source, and none of the injuries to guards or police was serious.

The prisoners, who claimed to have been gassed on by mistreatment which reached a climax when sugar porridge, riotous early in the day and was omitted from their breakfast seriously threatened the lives of the governor, S. N. Roberts, and a commissioner, Col. Turner.

Long before dawn the prison was in a hubbub with the inmates beating their cell doors and walls in protest. When the men were paraded into the courtyard for exercise previous to chapel they banded together and began to battle with their guards.

Led by one convict with a bugle, the rioters were attempting to gain their freedom when police reinforcements arrived from Plymouth and surrounding towns and forced them back to the cell blocks with rifle fire and baton charges.

In the meantime, one group had broken into the governor's office and forced him to flee for his life. They set fire to the administrative buildings and destroyed them with the official records. It was late in the afternoon before the fire was brought under control and the outbreak was thoroughly quelled.

Outside the walls the male residents of Princetown had armed themselves with rifles and their women-folk hid behind locked doors. The flames could be seen shooting high over the ramparts while the crack of rifles, the shouts of the convicts and the sounds of the bugle could be plainly heard.

The prison governor sent messages to police stations at Exeter, Plymouth and neighboring towns. Police came from all directions and troops at the Crownhill barracks turned out to steel helmets to await orders to proceed from Plymouth to cope with this blaze.

More than 100 prisoners attempted to storm the gates and the walls. Anticipating the move, the wardens sniped the rioters from strategic positions with the intention of wounding rather than killing.

Meanwhile, Colonel Turner, the commissioner, who had been visiting Dartmoor to investigate rumors of unrest, was attacked by three convicts, but was rescued by a long-term, who went to his assistance.

The prison governor was seated in his office when several men broke through a window and rushed him. He fled through a rear door, locking it behind him, and took refuge in a cell block inhabited by prisoners who were still passive.

One convict had obtained a bugle and sounded a charge on it. Others found musical instruments and set up a terrible din. Some sang the "Red Flag." The prison records were dragged forth and burned.

Reparations Conference May Still Be Held At Some Later Date

London, Eng.—The British government's announcement that Lausanne Reparations Conference will be postponed does not mean that the conference has been abandoned, it was said in official circles.

Preliminary work for the meeting is being continued, a competent spokesman said, and the government hopes that the conference ultimately will be held and will prove to be successful.

No one in official quarters took seriously what one of the London newspapers described as a "new"

'Plane Makes First Trip

Giant Liner Inaugurates Weekly Air Mail Service To Cape Town

London, Eng.—Promptly on schedule time, the giant Imperial Airways' liner "Helen" took off from Croydon aerodrome Jan. 20, inaugurating a weekly airmail service to Cape Town.

The plane carried 20,000 letters and 150 parcels, including a large box of eggs. The passengers were Air Vice-Marshal Sir Yveil Vyvyan, Lady Vyvyan and F. G. L. Bertman, Deputy Minister of Civil Aviation.

The London-Cape Town route follows established routes as far as Egypt; and then plunges south down the "dark continent," travelling a route worked out first by machines of the Royal Air Force, which did the pioneer work only a few years ago.

Noted Writer Is Dead

Lytton Strachey, Biographer, Dies At Age Of 52

Inkpen, Berkshire, Eng.—Lytton Strachey, whose vivid biographies recreated the pomp of Victorian England for a weary post-war world, died at the age of 52.

The author of "Queen Victoria," and "Elizabeth and Essex" had been ill with paratyphoid fever for many weeks and had been confined to his home at Marlborough. Although his illness was known to be serious, his sudden passing was a shock to friends in many parts of the world.

The author was a son of General Sir Richard Strachey, an Indian administrator, and Lady Jane Strachey, regarded as a brilliant woman. He was educated in Trinity College, Cambridge.

New Plants For Dominion

Report States More Factories Are Located In Canada

Montreal, Que.—The manufacturing situation in Canada indicates that more and more factories are locating in the Dominion from the United States and Britain, according to Norman J. Davies, president of the Board of Trade, in his report surveying the year 1931.

"It is estimated that about 1,200 United States branch, subsidiary, affiliated and other controlled industries are operating in Canada," said Mr. Davies, "with employed capital of about \$1,750,000,000; less than 200 from Great Britain with a total capital employed of \$190,141,000; 17 from foreign countries other than the United States with an employed capital estimated at about \$6,000,000."

Scholarships For Argentina Students

Will Provide Same Facilities As Given Rhodes Scholars

London, England.—The Prince of Wales announced the establishment of a scholarship for Argentina students at Oxford University at a dinner of the Argentina Chamber of Commerce here.

The prince said the scholarship would provide the same facilities as were given to Rhodes scholars from the United States. It would be extended to two students from the University of Buenos Aires annually for at least three years. Each student would stay at Oxford for two years.

Aviators Stranded In China

Fliers From Canada And U.S. Cannot Get Jobs

Shanghai, China.—Five Canadian aviators and five from United States, who came to China expecting to be given jobs at \$1,000 a month piloting Chinese military aeroplanes, found themselves stranded here.

The aviators said they were promised by Chinese organizations in Canada and the United States the aviation bureau of the Chinese Ministry of War, was seeking pilots and would pay the salary mentioned for competent men.

The aviators landed here with practically no money only to be told the government bureau is not looking for pilots at all.

The five pilots from the United States said posters appeared at numerous Pacific coast airports advertising for pilots.

Dr. Philip Chu, Chinese physician at Vancouver, the Canadians said, is president of the Chinese society there and was directing the enlistment of Canadian fliers.

The aviators said they understood more Canadian and United States pilots are coming to China as a result of the promises. The trade commissioners communicated with their respective governments, hoping to forestall the coming of others.

Canadian System Is Practical For States

Favorable Report Given By Experts Sent To Study Sales Tax

Washington.—Two experts sent to Canada by the United States treasury department to study the manufacturer's sales tax in the Dominion, told the House of Representatives Ways and Means Committee the Canadian sales tax system was practical for the United States and would bring large federal revenue.

Dr. Thomas S. Adams of New Haven, Conn., professor of political economy at Yale University, said he had found no opposition to the tax, it was successful, well-administered and netted about \$44,000,000 annually to Canada.

Cathedral Is Being Turned Into Museum

Soviets Will Use It For Anti-Religious Exhibits

Leningrad, U.S.S.R.—The Soviet government has announced that the Kazan cathedral here would be converted into the largest anti-religious museum in the Soviet Union.

When completed, the museum would contain exhibits of various objects of a religious nature, interpreted along the lines of the late Karl Marx's doctrine, adopted by Soviet Russia, that "religion is opium for the people."

The Kazan cathedral was started in 1501 and completed in 1811 at a cost of approximately \$2,000,000.

Wheat Quota Workable

London, Eng.—The government's revised wheat quota scheme, giving domestic farmers a fixed proportion of the British market is, so far as it goes, more workable than the original proposals, the National Union of Farmers was told at the annual meeting recently by a member who had been one of the negotiators with the government over the plan.

TRAGEDY OF SINO-JAPANESE WAR

Rather than be a source of worry to her soldier-husband as he departed for the battle-front in Manchuria, Mrs. Kiyochi Inoue (left), 21-year-old wife of Lieutenant Inoue (right), of the Japanese army, calmly attired herself in her best clothes and stabbed herself in the throat with a dagger her husband treasured. She left a note for her husband, in which she explained the reason for her suicide, and enclosed 40 yen (about \$20), with the request that he spend the money to make his soldiers happy. Her home was in Osaka, Japan.

WAR DEBT ADJUSTMENT

Right Hon. Neville Chamberlain, Chancellor of the Exchequer, who will attend Reparations Conference.

President Of U.F.A.

Robert Gardiner Unanimously Chosen To Lead Organization For Second Term

Edmonton, Alberta.—Robert Gardiner was unanimously chosen president of the United Farmers of Alberta for a second term at the annual convention here.

Mr. Gardiner, farm leader, who represents Acadia in the House of Commons and is a leader of the United Farmers of Alberta group in Dominion politics, was given an ovation when no other nominations were offered.

Mr. Gardiner notified the members that he had better look around for another president for 1933. He said he found the burden of carrying the two posts of leader of the group in the House of Commons and president of the association too heavy.

Norman F. Priestly, Calgary, was re-elected vice-president by acclamation. A. F. Aiken, Battle River, was also nominated, but withdrew in favor of a renewal of Mr. Priestly's term of office.

Suggests Bonus For Buyer

Proposal Would Benefit Coal Purchaser Instead Of Mine Operator

Calgary, Alberta.—Any step towards improvement in the Canadian coal industry meets the approval of Alberta operators. It was declared by officials commenting on a proposal for a government bonus to the purchaser of coal instead of the mine operator, H. J. Kelly, manager of the Dominion Steel and Coal Corporation, in Sydney, N.S., suggested the government pay a bonus, not to the mine operator, but to the purchaser of Nova Scotia coal.

"At present the subvention from the government benefits the railways, not the purchaser," declared P. R. Shields, manager of Coal Sellers Company, Limited. "Any subvention should result in a lower price to the consumer in order to be of any advantage to the industry."

Close Northern Radio Stations

Prince Albert.—Wakesau and Ladder Lake radio stations have been closed for the remainder of the winter, the operators passing through here recently en route for Winnipeg. Lac La Ronge is the only station in northern Saskatchewan now open, but it is believed the others will be reopened in the spring.

British National Cabinet Cannot Agree On Matters Of Tariffs

London, Eng.—Less than three months after its appointment the National cabinet finds itself divided over tariffs.

Nevertheless, there is no expectation that any of the ministers will resign, as ordinarily happens when one or more ministers become out of harmony with the remainder. Those in dissent will be free to speak and to vote, as opponents of their colleagues who are in the majority.

This was made clear in an official statement after a recent meeting of the cabinet, which stressed the cabinet was essentially united on all other matters of policy.

It would be daring to say the position is absolutely without precedent even in peace times, but the situation is nevertheless one of the most extraordinary that has arisen since the present constitutional practice was established.

Thursday, Jan. 21, the cabinet sat for four and a half hours; Friday, Jan. 22, for two and a half hours. Shortly after the breaking up, Prime Minister Ramsay MacDonald handed an official communique to the press which said:

"The cabinet has considered the report of its committee on the balance of trade but after prolonged discussion it has been found impossible to reach a unanimous conclusion on the committee's recommendations. However the cabinet is deeply impressed with the paramount importance of maintaining national unity in the presence of the grave problems which confront this country and the whole world."

Offered Fellowship

Fellowship In Royal Geographical Society Awarded To Western Aviator

Edmonton, Alberta.—A fellowship the Royal Geographical Society has been awarded to Pilot Walter E. Gilbert, Canadian Airways, Limited, according to word received in the city. Such an award to an aviator is believed to be unusual.

Pilot Gilbert flies Canadian Airways, Limited, machines from Edmonton to the Arctic Coast, and was associated with Major Burwash on the latter's trip to King William Land and the north magnetic pole in the fall of 1930. He piloted the aeroplane G-CASK on that occasion. This machine, known for steady service and which has been flown steadily by Gilbert for more than a year, is almost as well known as its master.

Duplication Hard To Cut

New York, N.Y.—Although there is excessive duplication of railroads in Canada, the extent by which this duplication may be reduced is limited by the needs of the communities served, Sir Henry Thornton, president and chairman of the Canadian National Railways, said in an informal speech after a luncheon given for him by the Downtown Athletic Club.

Proposal For A Moratorium On Debts Rejected In Alberta

Edmonton, Alberta.—Declaration of a moratorium on debts in the Province of Alberta was rejected by the United Farmers of Alberta as a solution of their financial difficulties. After a strenuous debate the farmers' convention voted down a resolution calling on the provincial government to declare a moratorium by a vote of 99 to 95.

The slim majority for the opponents of the proposal followed more than a score of fighting speeches on either side. In rejecting the scheme, the convention endorsed the stand taken by the Premier of the Province, Hon. J. E. Brownlee, who advised against the move. Two members of the Federal Parliament also threw their weight against it, William Irvine, Wetaskiwin, and Alfred Speakman, Red Deer.

Declarations that it was a matter of life and death to the farmers, that they were unable to pay anything on their debts and had a right to protect their homes and farms from seizures were frequent during the debate. Opponents of the measure warned of the danger to the credit of individuals and the Provincial Government and claimed a moratorium was only a

postponement and no solution of the defects in the existing economic system.

After rejecting the moratorium proposal, the convention passed a resolution favoring the extension of the Provincial Debt Adjustment Act to the whole province and an amendment to make the disposition of any debtor impossible without recourse to the act. Terms of the act were explained by P. H. Wedderburn, administrator for the Edmonton district.

Following a suggestion that if tax payments ceased schools would have to close up and provincial government services could not be carried on, the sponsors of the moratorium modified their resolution to exclude taxes and it was in this form it was voted down.

While opposing a moratorium the convention, nevertheless declared for a drastic reduction or cancellation of interest charges on existing debts.

Strong opposition to the transfer of the work of the Alberta provincial police to the Royal Canadian Mounted Police was voiced when a resolution from Calgary local came up.

NOTES AND COMMENTS

Keeping the home fires burning was the steady job of every householder over the week-end. War news from Shanghai, where things are indeed "hot," and here in the West battling against the weather which was decidedly cold, made the otherwise calm and peaceful Sabbath anything but a day of rest.

Those cheerful optimists who, following the mild winters of 1930-31, thought western winters were becoming milder, received an emphatic setback. From Jan. 21 to 28 in 1929 the temperature ranged from 8 to 42 below zero. For four days last week it hovered steadily between 20 and 30 below, with the added emphasis of an east wind which made it feel like 60 below.

25 years ago a sleigh ride across the prairies during the winter was not taken as a pleasure ride. Necessity alone compelled people to brave the rigors of winter driving. Nowadays with closed cars and anti-freeze it is regarded as an awful inconvenience if snow-drifts should bar the way. Had anyone prophesied in those days that men would be flying across the Rocky mountains at an altitude of 12,000 feet in 20 below zero temperature, they would have been scoffed at. Last Friday an airplane on a Trans Canada flight hopped off from its overnight stay at Lethbridge, and would have made an unbroken journey to Vancouver had it not been for fog and wind which compelled the flyers to land at Creston in two feet of snow. The world has moved forward and what were considered insurmountable obstacles have been overcome by man's will to win.

Gene Tunney is writing for publication his life story. He states that since starting on the job, he had found it a much more exacting task than he ever imagined. Consequently, he has developed sympathy for those who write for a living. Tunney is not the only well-known person who imagined writers have a "soft job." The man who writes, who constructs sentences and draws on his imagination in order to interest others, does not attain even an average standard without years of persistent plugging. He has to learn his trade as thoroughly as those engaged in other lines of industry. Often slighting or disparaging remarks come from those who would find it difficult to express themselves intelligently in the king's English. And how often will they tell others "how they would run a newspaper."

Julius Rosenwald, noted financier and philanthropist, who recently died, stated that 95 per cent. luck and 5 per cent. hard work constituted towards a man's success. Most people believe it is the reverse. Unquestionably many people are dogged by hard luck throughout life. Life insurance statistics inform us that only 5 per cent. of every 100 men are independent after passing the 60 year mark. They would stoutly deny that their independence was attributable to 95 per cent. of luck.

Luck or no luck, the greatest happiness comes from being interested in your own job, for happiness does not alone lie in the possession of material wealth. Nevertheless none would turn down the privilege of handling a little.

A business executive is appointed because of experience. It would be absurd to "pitchfork" a greenhorn into a responsible position. No group of shareholders would permit it. Yet in municipal politics Coleman is faced with a candidate for the mayoralty, nominated by the Communist element working under cover of the local union, who has no experience in local governing bodies. It is the desire of a certain element to gain control of local administration, with the avowed intention of pandering to one class only. Wild promises are made which are impossible of fulfillment.

The same element seek to inject their doctrine into the school board. As the organization with which they are connected has in the past flaunted constituted authority, it does not augur well for the administration of local affairs should these obstructionist tactics prevail. Fortunately provincial statutes expressly define how councils and school boards shall administer local affairs, but a few who are expressly out to create discord instead of promote constructive policies can be very harmful, and would try and make laws unto themselves, regardless of the ordinances to which they must submit in allegiance when they take the oath of office to serve the public.

The best way to ensure safe local government is for the ratepayers to make it a special point to vote on Monday next, and to select those candidates whose records in the past number of years entitle them to public support. When a man elects to run for public office, his record comes under microscopic examination. People have a fair chance to judge the qualities of the candidates, their records and their activities in private as well as public life.

Here and There

Hockey sticks to the number of 574,414, valued at \$177,695, or an average of 30 cents apiece, were made in Canada in 1930. Tennis rackets in the same year numbered 83,245 with a value of \$234,503.

The population of Canada, according to last year's census, is 10,353,778, an increase in 10 years of 1,956,822, or 17.82 per cent. The largest provincial population is in Ontario with 3,426,488. Saskatchewan, Alberta and Manitoba rank third, fourth and fifth.

A new rose has been produced at the Canadian Government Central Experimental Farm, Ottawa, hardy enough to withstand the climate at Ottawa without protection. It is a pale pink, blooming until the middle of June.

Brigadier-General H. F. Macdonald, of Vancouver, officially opened the Banff Winter Carnival, Torngren Slide, December 23. The general, Mrs. Macdonald, and their small daughter Mary made the official opening nine-minute run down the slide.

The biggest moose of the 1931 season in New Brunswick, with an antler spread of 56 inches, fell to the gun of Andrew Porter, Philadelphia sportsman. There had been three moose shot this year in New Brunswick, prior to this trophy, with spreads of 54 inches.

The Eastern International Dog Sled Derby will be held at Quebec February 22, 23 and 24. It is announced officially. Closing this, among the most colorful winter sport events of the season throughout Canada, the Dog Derby Costume Ball will take place at the Chateau Frontenac, Quebec, Wednesday evening, February 24.

The Oxford and Cambridge teams of skiers from the Old Country picked Canada and the Laurentians this year as the scene of their exploits, in place of Switzerland during the Christmas-New Year vacation, as part of the all-British programme of spending within the Empire. They had enough snow at Christmas to justify their venture and the success of the trip was placed beyond doubt by the heavy snowfall of January 2.

Creation of a Department of Communications, Canadian Pacific Railway, having supervision over the railway's telegraph, telephone and radio broadcasting services and taking the place of the former Canadian Pacific Railway Telegraphs, became effective January 1. W. D. McMillan, retired general manager of the Telegraphs Department, was appointed general manager of the new department, vice John McMillan, retired general manager. He is E. H. Goodfellow, who succeeds J. Mitchell, retired.

With the retirement of J. C. S. Bennett, official photographer of the Canadian Pacific Railway, thirty years of a colorful and much travelled career. Bennett, January 1. Mr. Bennett during his Canadian Pacific experience and in the 18 years that preceded it, took upwards of 40,000 photographs, providing a striking record of the growth and development of Canada.

The five great branches of primary industry in Canada, as measured by the latest available statistics of value of production were agriculture, forestry, mining, electric power and fisheries, with the first having a production greater than all the four others combined.

On for the E. W. Beatty mid-winter golf championship trophy to be fought for on the links of the Royal Woodlawn Golf Course, February 22-27, leading amateurs from Seattle have notified their intention to compete. Last year's cup winners from Victoria will also tee off and there will be strong contingents from Vancouver and the Prairie Provinces as far east as Winnipeg.

Who is the Canadian Pacific pensioner with the longest service record? A controversy recently raging has been ended by the official statement that Milton Caesar, of Vancouver, is the "grand old man" of the company, with 48 years of service, closely followed by W. J. Grant, of Hamilton, with 47. They are respectively 81 and 78 years of age.

Highly pleased with their first experience of Canadian ski country, delighted with Canadian hospitality and looking forward to future visits to the Dominion, the Oxford-Cambridge skiers sailed recently from Saint John to Liverpool aboard the Duchess of York. Matches between Canadian and British university ski teams will probably be a result of the visit.

Eyes of winter sport enthusiasts are now being focussed on the big event of the season on this continent, the 11th annual Eastern International Dog Sled Derby to be held February 22-24 at Quebec over a course of 128 miles terminating with the Dog Derby Ball at the Chateau Frontenac. Outstanding dog numbers are entered for the event. (815)

Coleman Municipal Elections

MONDAY, FEB. 8

9 a. m. to 7 p. m.

Your Vote and Influence is
Respectfully Requested on Behalf of

George Pattinson FOR MAYOR

The Reasons Why!

Six years of service to the ratepayers of Coleman, as councillor, besides various other activities, demonstrate that he has not only efficiently served the community, but is willing to give time and effort for the welfare and progress of all classes of Coleman people.

Mr. Pattinson does not stand for any particular clique---his avowed object in standing for election, at the request of many supporters, is to serve the interests of all, without favor and without prejudice.

He does stand for sane administration of the town finances, and his record as councillor and chairman of the Finance Committee of the Council is a record which stands for itself.

He is a citizen of 27 years residence in the Crows Nest Pass. In business and public life he is well known and by entrusting the office of mayor to him for 1932 you may rest assured that the interests and welfare of the townspeople will be carefully watched and the administration of every branch of municipal activity efficiently and economically carried on.

A Vote for Pattinson for Mayor is a Vote for

Safe, Sane, Efficient Administration

Vote for Pattinson!

This advertisement is published by supporters of
Mr. Pattinson's candidature for Mayor

Ratepayers!

of the Town of Coleman and Coleman School Dist.

If you want safe, sound
administration of Town
and School affairs, mark your bal-
lots on Monday for the following:

For Mayor: G. Pattinson

For Council:

Fred Antrobus, Geo. Hope, Lewis Jones

For School Trustees:

Herbert Snowdon and Fred Antrobus

You must mark only three names on ballot for the
Council, and TWO for School Trustees. This is
necessary to ensure vote being counted.

ELECTION of these candidates will en-
sure fair administration of the town's
interests

PROMISES have been made by other
candidates which are impossible of being
carried out. Their so called "platform"
made expressly to catch votes, has been
laid down by those who must or should
know that the Towns Act and the
Schools Act will not permit of the rad-
ical proposals which these candidates
have stated they will put into effect.

SUPPORT those candidates who stand
for representative government of all
classes, and not CLASS government

FINES such as we are experiencing de-
mand that men of sound judgment be
elected. We cannot afford to experi-
ment with visionary theories---we have
to deal with facts, and the facts are that
to safeguard the interests and property
of ALL RATEPAYERS, we must have
representatives on whom we can depend,
whose records stand for something more
than mere words.

SUPPORTERS of above candidates;
Be careful in marking your ballots
only for the names given above.
It is of vital importance to do so, if you
wish taxation kept down to a minimum
and that the revenues of the Town and
school district be wisely administered.

A Meeting of Supporters

of these Candidates will be held in the Town Hall on FRIDAY
FEBRUARY 5, at 8 p.m.

This advertisement is inserted by supporters of the above named candidates

David M. Shearer, 52, died January 14, from pneumonia. He was an outstanding construction engineer and had charge of the Government elevator construction at Churchill.

Dr. Hugo Eckener, commander of the giant German dirigible, Graf Zeppelin, was awarded the 1931 medal of the International Aeronautic Federation.

A bylaw making prohibitive the sounding of locomotive whistles or clanging of their bells within the city limits between the hours of 10 p.m. and 7 a.m. has been passed by the city council of Quebec.

Sir Henry Fielding Dickens, only son of Charles Dickens, the novelist, spent his 83rd birthday at his post of common sergeant of the City of London, England, an ancient magistracy position.

The John Scott award of \$1,000 was presented jointly to Juan de la Cierwa and Harold E. Pittman for the invention and development of the autogyro. John Scott was a chemist of Edinburgh, Scotland.

Over 50 tons of express and 24,892 pounds of mail were carried on the north route between Edmonton and Akavik, by planes of a commercial aviation company during the season of 1931.

War's Lessons

Canadians Have Deep Interest in Situation in Manchuria

"We have not forgotten the lesson which we learned in 1914 of what an obscure crime in a Balkan state can mean," said Hon. Vincent Massey, former Canadian Minister to Washington, in addressing the Empire Club on Manchurian problems at Toronto. "Canada needs no argument to show the situation in Manchuria is one to command her active interest."

He referred to the treaty of Washington in 1922, and the Paris peace pact, and said Canada, with the full obligation of nationhood, would have to decide for herself whether either treaty had been infringed or violated. Any trade advantage accruing to Canada through China's boycott of Japan would be more than offset by loss of trade with Japan.

A New Explosive

Drives Bullet Five Times Faster Than Sound Travels

The modern fire bullet has a muzzle velocity of 3,000 feet per second. It strikes a tremendous blow, measured in hundreds of pounds. Now a German named Verlich has invented an explosive that will speed the bullet more than a mile a second faster, and will triple its striking power. That is more than five times faster than sound travels.

A Modern Paradise

"Well, how are you getting on now you are married?"

"It is just like Paradise."

"I am glad to hear that."

"Yes, we have nothing to wear, and are in daily fear of being turned out."

Heavy Fur Catch

Catch This Year Promises To Be Best In Past Decade

The fur catch in the north country this year promises to be one of the best in the past decade. From early reports received from the fur north trappers will bring down heavy shipments of furs this spring.

The quality of the fur, a factor that varies from year to year, promises to be high, north trappers claim, because of the climatic conditions that have prevailed in the sub-Arctic regions this year.

While the catch in the more civilized portions of the province will be only average, north of Churchill and in the southern Indian Lake area the catch near the spectacular. Prices for pelts this year are only average, dealers advise, and the royalty and heavy cost of bringing them into the United States will prove a handicap to disposal this spring. It is feared.

The huge Juncos plane purchased this year by the Canadian Airways will probably bring the furs down from many of the isolated posts in the far north to Winnipeg.

Recipes For This Week

(By Betty Barclay)

HAM PIE

- 2 cups cold cooked ham, cut in half inch cubes.
- 3 potatoes.
- 1 onion.
- 1 green pepper.
- 1/2 cup celery.
- 2 tablespoons flour.
- 1 teaspoon sugar.
- Salt and pepper.
- 2 cups water.
- Rich biscuit dough.

Peel and slice potatoes and onion. Remove stem and seeds from pepper. Slice. Chop celery. Add ham, seasonings and water to vegetables. Cook all together until vegetables are tender. Stir in flour to thicken, adding more water if needed to make enough gravy to cover. Put mixture in a baking dish. Cover with a rich biscuit dough. Bake until crust is done, about twenty minutes. Serve hot.

LEMON CURD OR CHEESE

(Makes 1 pint or 3 glasses.)

- 6 eggs.
- 2 cups sugar.
- 1/2 cup lemon juice.
- 1/4 cup butter.

Beat eggs well. Add other ingredients. Cook over hot water until thick. Pour into sterilized glasses. Use for filling for tarts or cakes or as a spread for toast or hot biscuits.

Reproach Hardly Fair

People Cannot Go Back To Conditions Of Earlier Years

Mr. J. Moore's definition of "depression" — "A period during which people do without the things their parents never had" — is neat, but the implied reproach is hardly fair. The trouble is that you cannot turn the wheel of time backwards. An individual, for example, may sell his motor car, or give up his telephone, or refuse to go to the cinema, but you cannot deprive the age of the motor car and the telephone and the cinema. Somehow these things are forced upon us by the movement of events; they are part of an inevitable growth, and to check them would be like stopping a river in its course—either futile or disastrous. After all, it would not really help matters to go back to the conditions of 1880 with the population of 1931.

Insist On Remembrance

Day Being Observed

Veterans Oppose Attempts To Drop Holiday On November Eleventh

The Associated Veterans of Canada "will oppose to the utmost" any attempt to repeal the act, which established November 11 as a public holiday, to be known as "Remembrance Day." This has been made clear to the Prime Minister, R. B. Bennett.

"The Associated Veterans wish to bring the agitation which is being carried out to secure a repeal of the act constituting November 11 a national holiday, known as 'Remembrance Day.' The memorandum says, 'They will oppose to the utmost any attempt to secure a repeal of this legislation, and invite the support of the government in maintaining the legislation as at present enacted.'"

A dietitian, we note, has been speaking of a mine pie as "a polysaccharide carbohydrate of high caloric efficiency."

Alaska produced gold worth \$9,342,000 in 1931, an increase of almost a million dollars over 1930 production.

By Annette

OH! FOR THE FRESH CHARM OF SPORTS CLOTHES THAT PARIS ADORES

Here's a delightfully smart model that is carried out in two-piece woolen in deep bright blue mixture, now so modish.

It gives the impression of suit styling. The collar is white pique. The bandings are in navy blue. The belt is navy blue suede.

It has so much dash.

It's such a splendid type for office or college wear.

Style No. 815 may be had in sizes 14, 16, 18, 20 years, 36, 38, 40 and 42 inches bust. Size 36 requires 3 1/2 yards of 39-inch material with 3/4 yard of 39-inch contrasting, 5 1/4 yards of banding and 1/2 yard of 1 1/2-inch ribbon.

Jersey is a favourite this season and adapts itself perfectly to this model.

Price of pattern 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

Delightful Cruises

Canard and Anchor Line Steamers Furnish Sea Voyages For Those On Holiday Best

That the world and his wife are going to sea for their holidays more than ever before is evident in the fact that no less than fifty-six cruises have been arranged for Canard and Anchor Lines steamers during the remainder of this winter, spring, and summer. This does not include the departure this week from New York of the "Franconia" on her annual five-month cruise of the world.

The Maritimes and the St. Lawrence will get a good share of this cruise business, for twelve cruises will call at Canadian ports which will form their main attraction for thousands of New Englanders expected on these short trips from New York. Last summer the "Transylvania" made three experimental voyages to Quebec and Halifax from New York, with a 60-mile cruise up the Saguenay River. She is the largest vessel ever to navigate this famous waterway, and on each voyage she was booked to capacity. This summer and fall there will be six such 12 1/2-day cruises, by this steamer and the "Calabria" which will then make her first appearance on the St. Lawrence. Other cruises in which Canadian ports will be featured are three six-day cruises from New York to Halifax and Bermuda on the express "Mauretania," during the summer. The Anchor liner "Calabria" will make a 9-day cruise to Halifax, on August 27th, and on October 20th, a 10-day voyage will be made to the same port by the "Transylvania."

Several short summer cruises on express Canarders and two Labor Day weekend cruises to the "Transylvania," and the "Berenaria," largest Canarder, are also scheduled to call at Halifax. Elaborate arrangements for seeing Acadia are being made for these passengers.

Short, inexpensive trips to the West Indies continue to be popular, their success being indicative of the price trends of today. A call at Miami has been introduced into the itinerary of eight 9-day cruises to Havana and Nassau by the "Calabria," the visit to the Florida playgrounds of the wealthy proving a great attraction.

More leisurely visits to the West Indies will be made on three voyages of the "Calabria," and two on the "Scythia," ranging from 12 to 23 days and visiting all the high spots in the islands as well as calls at Panama and the South American mainland.

Bermuda retains its hold on the imagination of the cruise tourist public, the "California" and "Samaria," one of the 20,000-ton Canarders, being listed to make Easter cruises from New York of 9 and 8 days respectively.

Maintains Blood Circulation

Mechanical Heart Constructed By British Doctor Aids Science

Construction of a mechanical heart which maintains blood circulation in animals after the real heart has been removed, is announced at Stanford University, California, by Dr. Paul J. Hanzlik, head of the pharmacology.

The device, made of brass, was perfected by a British scientist named Gibbs, Dr. Hanzlik said.

Dogs, cats, rabbits and other large animals live for several hours under an anesthetic with the mechanical heart. Its value is in enabling students and physicians to trace the flow of blood through an animal's body and to study the effects of various drugs and dyes in the blood, Dr. Hanzlik explained.

It is said that 500 different kinds of material are used for the manufacture of shoes.

SUNDAY SCHOOL LESSON

JANUARY 31

JESUS FEEDS THE MULTITUDE

Golden Text: "Jesus said unto them, I am the bread of life; he that cometh to Me shall not hunger, and he that believeth on Me shall never thirst."—John 6:35

Lesson: John 6:1-71

Devotional Reading: Psalm 34:1-11

Explanations and Comments

Jesus and the Multitude, verses 1-4.—With His disciples Jesus crossed to the eastern side of the Sea of Galilee (or the Sea of Tiberias, as it was also called from the City of Tiberias which Herod Antipas had built on the western shore of the lake in honour of the Emperor Tiberias) and, climbing the hillside sat down for a quiet conference with them.

The Feeding Of Philip, verses 5-7.—When Jesus saw the crowd He turned to Philip and asked him where they were to buy bread for them. Philip was a Bethsaida man of affairs and he made a hasty calculation. Two hundred shillings' worth of bread would not supply even a little for each one.

The Evangelist adds, "This He said to Jesus, him: for He Himself knew what He would do." The difficulty of the task tested Philip's faith. The one thing necessary was that he should see the problem over to his Master with full faith that He could solve it, and should offer to help as the humble instrument by whom the people could be served.

The Lord's Supply, verses 8, 9.—Andrew, Peter's brother, then said that there was a lad among them who had five barley loaves and two fishes, "but what are these among so many?" he exclaimed. The emphasis is on the word "but." Andrew saw the poverty of the visible supply; he failed to see the richness of the invisible Power.

The Miracle, verses 10-13.—At the direction of Jesus the people sat down on the grass, about five thousand men besides the women and children, Matthew 14:21. They sat in companies of fifty. The distribution might be quickly made. Taking the five barley loaves in His hands, Jesus broke them, probably repeating the customary words, "Blessed art Thou, Jehovah our God, King of the earth, who causest bread to come forth of the earth."

Then Jesus distributed the loaves and fish till all were abundantly satisfied.

When all were satisfied Jesus bade His disciples gather up the broken pieces that nothing be lost. Those fragments filled twelve baskets. Probably each of the Twelve had a provision basket with him. The scantiness of the source, five barley loaves, is again mentioned to emphasize the greatness of the miracle.

Cleaning Units Needed

To Ensure Distribution Of Clean Seed To Farmers

In order to cope with the cleaning of seed grain for distribution to needy farmers this spring between 400 and 500 travelling seed cleaning machines will probably be necessary.

In addition to this, it is believed by grain men that every privately owned seed cleaning machine will have to be utilized if seed grain is to be properly cleaned in preparation for coming spring work.

Over 6,000,000 bushels seed wheat and at least 2,000,000 bushels of seed oats will be required for distribution before spring, entailing an expenditure of approximately \$9,000,000.

According to C. B. Daniel, manager of the Saskatchewan Relief Commission, the seed grain relief plan in Saskatchewan is a gigantic problem and it is essential that a plan be put into effect as soon as possible.

Definite steps toward adopting a scheme whereby clean seed can be supplied to the farmers of Saskatchewan through the Saskatchewan Relief Commission are being formulated. It is learned unofficially, Thursday, Jan. 14.

Across Africa By Train

Important Event That Was Calmly Accepted By The World

The first railway train to cross Africa from ocean to ocean started July 1, last year on its journey from Lobito Bay to Beira, a distance of 2,949 miles. The event was a vastly important one and the engineering achievement was worthy of note, but it was calmly accepted by the world.

Yet when David Livingstone, the first white man to cross Africa, made the journey in two years, there was hardly anyone throughout all the world who didn't thrill to his grand adventure, and hardly a home where it was not a topic of burning interest.—Wall Street Journal.

Trans-Atlantic Flight

Proposed Air Hop From Ireland To New York

Captain J. P. Saut, who navigated Air Commodore Charles Kingsford-Smith across the Atlantic in June, 1930, announced recently that preliminary arrangements had been made for a flight to New York and back next May.

He will be accompanied by Col. James Fitzmaurice, who preceded him across the ocean in the "Bremer" in 1928, and will start the flight from Port Marnock, Ireland. They intend to make the return hop the day after arriving in New York.

Old Belief Explored

The only areas in which fish eat is called a brain food is that it is digested easily and therefore the stomach does not make such a heavy call on the blood in the brain during the digestive processes.

Bilious For Days

At Time Until She Took Vegetable Pills

Gratefully, Mrs. C. writes: "The first dose of your wonderful Carter's Little Liver Pills gave me great relief after every medicine I tried failed."

Because they are PURELY VEGETABLE, a gentle, effective tonic to both liver and bowels, Dr. Carter's Little Liver Pills are without equal in the United States toward the League of Nations and declared this country is in honor-bound to adhere both to the league and the world court.

Miners Decide to Continue Strike at Meeting Last Evening

New Issue Follows Settlement of First Dispute When Union Officials Demand Dismissal of Men Who Worked on Days When Strike Was On

Throughout yesterday afternoon a committee of the union was in session with the general managers of both mines, and it is reported that a settlement was made of the matters which had been the cause of the strike which started on Monday.

Later in the evening, it was reported that the union demanded the suspension or dismissal of four or six men who had worked at McGillivray mine during the strike. This the management refused to do, with the result that the men from both mines are out again, and it is not known how long the deadlock will continue.

Appeal is to be made to the Farmers Unity League for assistance in sending supplies for a community kitchen.

It is expected that a general meeting of the miners will be held on Sunday, but in the meantime there is nothing to report. Pickets were out this morning.

The past five years have been free from major troubles, but for the past two years since the securing of control of the union by the radical or Communist element, there has been a constant undercurrent of unrest working in the various mining areas of the province.

Council Reports Economies

(Continued from Page One)
the finance committee and Lewis Jones for Property and Works committee. A vote of thanks was passed by the meeting for the economical manner in which the town had carried on throughout the year.

One ratepayer voiced his objection on some ratepayers being given more work than others to work out their taxes, but the mayor stated that though there may be incidents of that nature, the council did its best to investigate all cases, so that work would be distributed evenly. There was practically no controversy on the council's administration throughout the year, and the meeting adjourned after adopting the financial report. The annual ratepayers meeting of the school district followed.

Many Lose Votes—Not Registered

Disappointment is expressed by many women who though qualified to vote, are debarred because they did not register during August and September. Typewritten notices were posted in town, but no advertisement was carried in The Journal, consequently many were not aware of the necessity of registering, for so many notices are tacked on telephone poles, that a large number of people pay no attention to them. Important notices affecting the town and ratepayers should undoubtedly be published in the paper, even though the Act does not stipulate that they should be.

Local News

Mrs. Sam Howarth has been seriously ill with pneumonia.

We will certainly have an election on Monday. Vote early!

Mayor J. Moores completes two years of office with credit to him self. He lays down the gavel with the appreciation of the ratepayers.

The curlers are playing their regular winter schedule for the Merchants, Morrison and McGillivray Cups.

J. E. Gamble, operator on night shift at the C. P. R., has left for Coronation, and his place has been taken by A. E. Cox of Blairmore.

The Coleman Radio Club are needing a directional loop. Will owners of such please communicate with the secretary, Mr. D. Hoyle, Phone 228 J.

ANNOUNCEMENTS

Dr. A. E. Shore, of Drs. Gunn, Hackney & Shore, Calgary, will be at the office of Dr. R. F. Stewart, Blairmore. Watch this paper for announcement of date.

Anyone wishing to consult him with regard to eye, ear, nose or throat, please make appointment with Dr. Stewart.

FRESH OPPORTUNITIES

Come every day to do something useful. Why not try a little touching up on the interior of your home. We have the tools, the paint or varnish or anything else that may be required.
